3. Discussion took place about involving more clubs in NECRA .Always a priority for NECRA.
4. The question of registration arose, early registration is far better for the Secretariat and the Clubs for attendance in both racing and social events .The general opinion was late registration should continue to be allowed .
5. There was an approach from the floor that clubs were to consider allowing slower boats to start first in the races .This has its good and bad points - each club to decide on merit.
6. The committee were asked to assess how improvement could be measured, a suggestion of 5% increase on boat numbers competing per annum was suggested .The committee agreed to look at ideas.
